To: all MFFTC members and dog clubs interested in Keystone Woods WMA (formerly Kelly Farms)

Here is a brief update as to the status at Keystone Woods WMA.

The trust for Public Land has not yet transferred the remaining portion of the land into the MN DNR's hands. As it sits right now the only portion that has been turned over to the DNR is the portion (300+ acres) mostly north of the feed lot road. They ran in to an issue getting a demolition permit from the township to take down the building's so therefore the process is being held up. The TPL cannot transfer the land to the DNR until the buildings are removed. We are being told their plan will not be presented to the public for comment until the remaining parcel has been transferred to the DNR. In the meantime, we have been given a draft lease for the designated portion (98 acres) within the area currently under the DNR's control. There are several details that need to be worked out and we will be continuing to negotiate over the coming days/weeks in hopes to come to resolution that will work for the remaining areas as well once they become available. We have established a committee of representatives of each of the different dog clubs who have been using these grounds and I would encourage you if you had any questions or would like to provide input to do so via your club and this committee.

Thanks

John Zeman - MFFTC President
